

ABSTRAK

PENGEMBANGAN LKPD TEKS PERCAKAPAN BERBASIS BEGAWI ADAT PERKAWINAN UNTUK SISWA KELAS X SMA

Oleh

DINA MARYANA

Permasalahan yang dibahas dalam penelitian ini ialah prosedur pengembangan LKPD teks percakapan berbasis *begawi* adat perkawinan dan kelayakan LKPD. Berdasarkan permasalahan tersebut, penelitian ini bertujuan untuk menghasilkan produk LKPD dan mendeskripsikan kelayakan produk “LKPD Teks Percakapan Berbasis *Begawi* Adat Perkawinan untuk Siswa kelas X SMA”.

Penelitian ini menggunakan metode *Research and Development* dengan mengadopsi tujuh dari sepuluh langkah penelitian pengembangan Borg dan Gall. Instrumen penelitian ini menggunakan skala *likert* dan kuesioner. Hasil penelitian bahwa (1) produk LKPD teks percakapan yang dihasilkan dengan desain struktur fisik sebagai berikut: a) halaman sampul (cover), b) identitas LKPD, c) kata pengantar, d) petunjuk penggunaan LKPD, e) sistematika LKPD, KI, KD IPK dan tujuan pembelajaran, f) pembelajaran I konsep awal (pendalaman materi, tugas individu, tugas, kelompok, penilaian), g) pembelajaran II (pendalaman materi teks

percakapan di dalam *begawi* adat perkawinan, tugas individu, tugas kelompok, penilaian), h) rangkuman, i) evaluasi, dan j) daftar pustaka dan (2) LKPD teks percakapan yang dikembangkan tergolong ke dalam kategori sangat layak. Perolehan hasil uji coba ahli mendapatkan kategori sangat layak dengan penilaian ahli materi 89,1, ahli media 87,5 dan praktisi mendapatkan penilaian 95,4. Selain uji validasi para ahli, uji kelayakan berdasarkan pendapat dan pandangan siswa sebagai pengguna LKPD juga diperlukan. Hasil dari uji kelayakan berdasarkan pendapat dan pandangan siswa sebagai pengguna LKPD memperoleh penilaian 94,2 dengan kategori sangat layak. Adapun kelayakan berdasarkan pendapat dan pandangan siswa sebagai penggunaan meliputi tiga aspek, yakni penilaian aspek sajian memperoleh penilaian 92,8, aspek kebahasaan memperoleh 94,1 dan aspek kegrafisan memperoleh penilaian 95,9.

Kata kunci: lembar kerja peserta didik, teks percakapan, *begawi* adat.

ABTRACT

THE DEVELOPMENT OF STUDENT WORKSHEET CONVERSATION TEXT BASED ON *BEGAWI'S* MARRIAGE TRADITIONS FOR SENIOR HIGH SCHOOL GRADE X

By

DINA MARYANA

The problem discussed in this study is the procedure for developing a worksheet conversational text based on marriage customs and the feasibility whorksheets. Based on these problems, this study aims to product worksheet and describe the feasibility of the product "Worksheet Conversation Text Based on *Begawi's* Marriage for Grade X Senior High School".

This study uses the Research and Development method by adopting seven of the ten steps of Borg and Gall development research. The research instrument used a Likert scale and a questionnaire. The results of the study were that (1) worksheet product conversational text were produced with the following physical structure design: a) cover page, b) worksheet identity, c) introduction, d) instructions for using worksheet, e) systematics worksheet, KI, KD IPK and learning objectives, f) learning I initial concepts (exploration of material, individual assignments,

assignments, groups, assessments), g) learning II (deepening of conversational text material in begawi's marriage, individual assignments, group assignments, assessments), h) summary, i) evaluation, and j) bibliography and (2) the developed conversational text worksheets are classified into the very feasible category. The expert trial results obtained a very decent category with an assessment of material experts 89.1, media experts 87.5 and practitioners getting an assessment of 95.4. In addition to the validation test of experts, a feasibility test based on the opinions and views of students as worksheet users is also needed. The results of the feasibility test based on the opinions and views of students as worksheet users obtained an assessment of 94.2 with a very decent category. The feasibility based on the opinions and views of students as use includes three aspects, namely the assessment of the presentation aspect getting an assessment of 92.8, the linguistic aspect getting 94.1 and the graphic aspect getting an assessment of 95.9.

Keywords: student worksheets, conversational texts, traditional *begawi*.
