

ACKNOWLEDGEMENTS

Praises to Allah SWT the Almighty, for blessing me in finishing this script as a partial fulfillment for S-one degree at the Language and Arts Department of the Teacher Training and Education Faculty, in the University of Lampung.

This script entitled “Improving Students’ Vocabulary Mastery through Guessing Game in Class 3 Bilal bin Rabbah of SDIT Baitul Muslim Way Jepara, East Lampung” would never come into existence without help and support from some people or institution. However, I would like to express my deepest gratitude to Drs. Basturi Hasan, M.Pd. as my advisor, who has given me guidance by giving many suggestions and comments to finish my script and Drs. Sudirman, M.Pd., as my co-advisor, who has patiently guided me in writing this script. My gratefulness is extended to Drs. Huzairin, M.Pd., as my examiner, for his suggestions and comments for my script.

My deep gratitude is also expressed to the headmaster and all teachers of SDIT Baitul Muslim who has permitted and supported me to continue my study to S-1 Degree at Lampung University. My thankfulness is also due to my discussion group, (Group E) who has given many contributions in finishing this classroom action research.

Last but not least, I would also like to express my thankfulness and indebtedness to my family and my parents who have prayed and supported me during my study.

Bandar Lampung, February 21st, 2013
