State Confiscated And Encumbrances Objects became a separate issue for law enforcement agencies, because the potential existence of abuse, fraud and loss of evidence, abuse of evidence that has been seized as sold by unscrupulous law enforcement officers. Problems in this study were: (1) How is the handling of state confiscated and encumbrances objects? (2) Why the limiting factor in the handling of state confiscated and encumbrances objects.

The method used in this research is normative juridical and juridical empirical approach. Data collected by literature and field studies. Data were analyzed qualitatively for the conclusion of the study.

Research results and discussion indicate: (1) The handling of state confiscated and encumbrances objects consists of revenues, research and assessment, registration, storage, maintenance, and removal expenses, rescue and security, reporting and final expenditure. The handling function shows State Storage Home of Confiscated and Encumbrances Objects in managing the state confiscated goods and spoils the State is doing the administration of seized items and loot the country, maintenance and transfer of confiscated items and loot the State, providing security and management of State Storage Home of Confiscated and Encumbrances Objects and Doing paperwork and archival. (2) Three factors inhibiting the handling of confiscated objects and spoils the country is limited human resources State Storage Home of Confiscated and Encumbrances Objects the light of the quality and quantity, inadequate infrastructures that form the building State Storage Home of Confiscated and Encumbrances Objects building area. In addition, the notion of law enforcement officers that State Storage Home of Confiscated and Encumbrances Objects is considered not capable of handling of confiscated objects country.

Suggestions in this study was to coordinate the management of plunder and spoils the country by law enforcement officials should be improved and not done partially. The need for dissemination to the appropriate agencies regarding the role and significance of State Storage Home of Confiscated and Encumbrances Objects as a storage object and the state confiscated booty country.

Keywords: Handling; objects; encumbrances; State Storage Home.
