Education is a way to educate the nation that are set in the preamble of the Constitution of 1945 paragraph 4 and want to achieve national education goals. The poverty factor is still the main reason for society to send their children to a higher level at the high school level. Regional Regulation of Bandar Lampung No 1 of 2012 and Mayor Regulation No. 49 of 2013 which regulates the Community Development Program is expected to be a solution to the problems in education in order to fulfill the needs of low income society to obtain the same education. SMA Negeri 4 Bandar Lampung is one of the schools that use community development program.

The research problem is how the implementation of community development programs in the acceptance of new students at SMAN 4 Bandar Lampung and whether inhibiting factor in the implementation of the acceptance of new students of community development program in SMAN 4 Bandar Lampung.

The method used in this study is a normative approach, is the approach taken by studying, viewing and reviewing, such as legislation and empirical by interviewing the relevant parties in this study. Data sourced from primary data and secondary data.

Based on the results we concluded that the implementation of community development programs in the acceptance of new students at SMAN 4 Bandar Lampung to go through the implementation procedures that have been specified by the Department of Education of Bandar Lampung. Department of Education of Bandar Lampung active role in monitoring and SMAN 4 Bandar Lampung active role in selecting new students of community development, therefore, SMAN 4 Bandar Lampung avoid from stealing of 50% quota allocated to students of Community Development.
The inhibiting factor in the implementation of new student acceptance (PPDB) on Community Development Program at SMAN 4 Bandar Lampung is a community, school capacity and location of the survey.

Suggestions in this study is 1) The Department of Education of Bandar Lampung in the acceptance of new students through community development programs should provide provisions for prospective new students who enroll in SMA N 4 Bandar Lampung doing the academic tests in advance, or given an average value entered the public school in order to obtain new learners of community development that is truly qualified in accordance with the criteria expected and can improve the quality of education. 2) The Implementation of community development programs in the acceptance of new students at SMA 4 Bandar Lampung still have people who do the manipulation of data at the time of registering, preferably in the forthcoming years, SMA N 4 Bandar Lampung should give strict punishment for the people who are known to manipulate the data and warning at the sub-district / local district so that not to simply give lower poverty letter on its citizens.
