EXPANSION FORMATION DISTRICT OF METRO
CENTRAL LAMPUNG****BY****Dyah Ayu Vijaya Laksmi**

The purpose of this paper is to analyze the process of handing over the assets of the district and county asset dispute between the government and the governments of Central Lampung District Metro City, as well as analyze the mediation process as a result of the formation of regional assets Metro city as the expansion of Central Lampung regency. The research was conducted with the empirical research that is by learning normatif legislation and describes the results of research data on the occurrence of conflict and dispute resolution district assets and doing interviews with sources.

The results of this research showed that: Dispute between county assets and Central Lampung regency occurred because Metro City; The existence of an agreement or MoU made by both parties does not correspond to Kepmendagri No.42 of 2001, the difference of opinion between the government and Central Lampung District Municipality of Metro on asset submission process area must be approved by the Parliament. Dispute resolution was mediated by the Regional Government of Lampung Province, but to date the asset disputes Central Lampung District and the City Metro is still a polemic.
