*The purpose of this study was to determine the impact of fuel compensation on the expenditure of poor beneficiary households and the difference in expenditure between poor beneficiary and non-beneficiary households of fuel compensation. The analysis method used is Difference in Difference and Ordinary Least Square. The results of this study showed that fuel compensation was proven to have a significant impact on the expenditure of poor household beneficiaries and the expenditure of poor households before fuel compensation was not proven to have a difference, while the expenditure of poor households after fuel compensation was proven to have a difference between the group of recipients and non-recipients of fuel compensation in Panjang Sub-district, Bandar Lampung City. In addition, the variables of number of household members, years of education of the household head, gender of the household head, and smoking habits of the household head have a significant influence on the expenditure of poor households in Sub-district Panjang, Bandar Lampung City.*

Difference in Difference, Fuel Oil**

## ABSTRAK

### ANALISIS DAMPAK DAN KOMPARASI KOMPENSASI KENAIKAN HARGA BAHAN BAKAR MINYAK (BBM) TERHADAP PENGELUARAN RUMAH TANGGA MISKIN DENGAN METODE *DIFFERENCE IN DIFFERENCE* (STUDI KASUS: KECAMATAN PANJANG KOTA BANDAR LAMPUNG)

Oleh

DEANDRA LAURADINA

Tujuan penelitian ini untuk mengetahui dampak kompensasi BBM terhadap pengeluaran rumah tangga miskin penerima manfaat dan perbedaan pengeluaran antara rumah tangga miskin penerima dan non-penerima manfaat kompensasi BBM. Metode analisis yang digunakan adalah *Difference in Difference* dan *Ordinary Least Square*. Hasil penelitian ini menunjukkan bahwa kompensasi BBM terbukti secara signifikan memiliki dampak pada pengeluaran rumah tangga miskin penerima manfaat dan pengeluaran rumah tangga miskin sebelum adanya kompensasi BBM tidak terbukti memiliki perbedaan, sedangkan pengeluaran rumah tangga miskin setelah adanya kompensasi BBM terbukti memiliki perbedaan antara kelompok penerima dan non-penerima kompensasi BBM di Kecamatan Panjang Kota Bandar Lampung. Selain itu variabel jumlah anggota rumah tangga, lama pendidikan kepala rumah tangga, jenis kelamin kepala rumah tangga, dan kebiasaan merokok kepala rumah tangga memiliki pengaruh yang signifikan terhadap pengeluaran rumah tangga miskin di Kecamatan Panjang Kota Bandar Lampung.

**Kata Kunci:** Pengeluaran Rumah Tangga, Bantuan Sosial, Evaluasi Dam
