| .................................................................. | xx       |

I. PENDAHULUAN

1.1 Latar Belakang dan Masalah. ............................................. 1
1.2 Tujuan Penelitian. ............................................................. 2
1.4 Kerangka Pemikiran. ............................................................ 3
1.5 Hipotesis. ........................................................................ 5

II. TINJAUAN PUSTAKA

2.1 Budidaya Tanaman Jagung. .................................................... 6
2.2 Sistem Olah Tanah. ............................................................... 8
2.3 Pupuk Nitrogen. .................................................................. 11
2.4 Respirasi Tanah. .................................................................. 12

III. BAHAN DAN METODE

3.1 Tempat dan Waktu Penelitian .............................................. 14
3.2 Bahan dan Alat ..................................................................... 14
3.3 Metode Penelitian ............................................................... 15
3.4 Pelaksanaan Penelitian ....................................................... 17
3.5 Pengamatan. ....................................................................... 18
IV. HASIL DAN PEMBAHASAN

4.1 Respirasi Tanah ................................................................. 21
  4.1.1 Rizosfer. ................................................................. 21
  4.1.2 Non Rizosfer. .......................................................... 21

4.2 Nilai uji T terhadap respirasi rizosfer dan non rizosfer
   pertanaman jagung ............................................................ 29

4.3 Hubungan respirasi tanah dan rizosfer dengan C-Organik,
   N-Total Tanah, Kelembaban, dan Suhu tanah. ....................... 30

V. KESIMPULAN DAN SARAN

5.1 Kesimpulan ................................................................. 33

5.2 Saran ............................................................................. 34

PUSTAKA ACUAN ................................................................. 35

LAMPIRAN Tabel 18-105 .................................................. 38-51
