Unmannerly deviating caused in the growth of mental attitude children not yet stable , and also not in spite of environmental factors. Children a criminal offense must face with law enforcement officials to be responsible for his actions. punishment is not in accordance with the provisions of article 81 paragraph (2) of act number 23 year 2002 regarding the protection of children. The problem is whether the basic considerations in dropping criminal justice must exercise social work for the children? and how they exercise power law implementation of the labor social these kids?.

Approach the problem is the approach used normative and juridical juridical empirical. Data collection is done with the literature study and field studies. Data that have been acquired next analyzed qualitatively, to get a conclusion in accordance with issues discussed.

Research result indicates that consideration and discussion of the judge in his ruling against dropping cases done by a child is dropping criminal imprisonment and fines subsidair must exercise work, however in the first verdict judge not mention institutions which must exercise should carry out the work. The judge dropped the children in his ruling on cases that done by children, judicial decisions as the criminal cases over which is dropping subsidair prison and fine with mandatory exercise work , the judge in his decision and to determine the place of education, guidance and exercise work will be implemented. In accordance with article 3 of the act no. 32 / 1997 about the children.

Suggestion in research is there should have been a further discussion about criminal social work ini. penanganan the process of a child who were in conflict with the law shall be done with care so the stigmatization does not cause for children , hence from the perspective of a ius constiuendum there is a need to use of non-penal policy.
