The existence of civil service police unit as a helper of regional head in enforcement of regional rule in conducting peace and good order of society, but in fact Civil Service Police Unit in the discipline hawkers more repressive approach, which impacted negatively on the street vendors and Municipal Police Units suspected of being unprofessional

The purpose of this study was to determine the Professionalism of Civil Service Police Unit Bandar Lampung in curbing street vendors. While research method used is descriptive qualitative.

The results showed that the Civil Service Police Unit Bandar Lampung in curbing Street Vendors in Bambu Kuning Yellow Bamboo has been professional, seen from the following indicators:

- (1) The quality of expertise and authority, carried out with the controlling authority of the vendors that are based on the Civil Service Police Unit as implementing government Bandar Lampung policy in the field of maintenance

of order and beauty of the city.

- (2) Mental attitude in the form of commitment, carried out by controlling street vendors based on the attitude and commitment to maintain the beauty, cleanliness and order in the city of Bandar Lampung through the control of street vendors who do not use repressive measures or violence.
- (3) Gauge of the effectiveness/efficiency performance, conducted by controlling street vendors who draws on the success in implementing the legislation, particularly laws relating to beauty and order in the city.
- (4) The procedure of work, carried out by controlling street vendors based on the stages of pre-emptive (socialization and persuasive measures to street vendor), Preventive (preventive patrols and surveillance in order to prevent violations of Regional Regulation and give an oral or written reprimand the street vendors) and repressive (enforcing legislation that is taken any action against street vendors who violate the public order in the Yellow Bamboo Market).
