

ABSTRAK

PELAKSANAAN PEMBANGUNAN DESA BERBASIS *SUSTAINABLE DEVELOPMENT GOALS (SDGs)* DESA DALAM MENINGKATKAN INDEKS PEMBANGUNAN MANUSIA (IPM) PADA TAHUN 2022 (Studi Kasus Desa Margosari dan Desa Margototo Kecamatan Metro Kibang Kabupaten Lampung Timur)

Oleh

TEGAS ADLI ALAN

Program *SDGs* desa merupakan program yang berlaku di Indonesia pada tahun 2020 dengan mengacu pada Permendes PDTT Nomor 13 Tahun 2020 Tentang Prioritas Penggunaan Dana Desa Tahun 2021 dan Permendes PDTT Nomor 21 Tahun 2020 Tentang Pedoman Umum Pembangunan Desa dan Pemberdayaan Masyarakat Desa. Pelaksanaan pembangunan desa berbasis *SDGs* Desa dalam meningkatkan IPM pada tahun 2022 khususnya di Desa Margosari sudah dapat dikatakan terlaksana, sedangkan di Desa Margototo belum dapat dikatakan terlaksana dikarenakan pada tahun 2022 Desa Margosari sudah terdapat skor capaian *SDGs* Desa, sedangkan Desa Margototo tidak terdapat skor capaian *SDGs* Desa. Dengan demikian, penelitian ini bertujuan untuk mengetahui bagaimana pelaksanaan pembangunan desa berbasis *SDGs* Desa Margosari dan Desa Margototo dalam meningkatkan IPM di tahun 2022. Penelitian ini menggunakan metode penelitian deskriptif dengan pendekatan kualitatif, dan pengumpulan datanya dilakukan dengan wawancara, observasi, dan dokumentasi. Wawancara dilakukan kepada perangkat desa, bidan desa, dan masyarakat desa. Penelitian ini menggunakan teori implementasi kebijakan publik menurut Soren C. Winter (dalam Mustari, 2015) dengan indikator perilaku hubungan antar organisasi, perilaku implementor (aparatur/Birokrat) tingkat bawah, dan perilaku kelompok sasaran. Hasil penelitian menunjukkan bahwa dilihat dari ketiga indikator dalam pelaksanaan pembangunan desa berbasis *SDGs* Desa dalam meningkatkan IPM pada tahun 2022 khususnya di Desa Margosari dan Desa Margototo sudah terlaksana, dimana kedua desa baik Desa Margototo maupun Desa Margosari memiliki keberhasilan dan kekurangan dalam pelaksanaan pembangunan desa berbasis *SDGs* Desa dalam meningkatkan IPM pada tahun 2022.

Kata kunci: *SDGs* Desa, IPM, Pembangunan Desa. Implementasi Kebijakan Publik

ABSTRACT

IMPLEMENTATION OF VILLAGE DEVELOPMENT BASED ON VILLAGE SUSTAINABLE DEVELOPMENT GOALS (SDGS) IN IMPROVING HUMAN DEVELOPMENT INDEX (HDI) IN 2022 (Case Study of Margosari Village and Margototo Village, Metro Kibang District, East Lampung Regency)

By

TEGAS ADLI ALAN

The Village SDGs program is a program that was implemented in Indonesia in 2020, referring to Permendes PDTT Number 13 of 2020 concerning the Priority Use of Village Funds in 2021 and Permendesa PDTT Number 21 of 2020 concerning the General Guidelines for Village Development and Village Community Empowerment. The implementation of village development based on SDGs Desa in increasing the Human Development Index (HDI) in 2022, especially in Margosari Village, can be said to have been implemented, while in Margototo Village it cannot be said to have been implemented because in 2022 Margosari Village already had an Village SDGs achievement score, while Margototo Village did not have an Village SDGs achievement score. Therefore, this study aims to determine how the implementation of village development based on Village SDGs in Margosari and Margototo Villages in increasing the HDI in 2022. This study uses a descriptive research method with a qualitative approach, and data collection is carried out through interviews, observations, and documentation. Interviews were conducted with village officials, village midwives, and villagers. This study uses the theory of public policy implementation according to Soren C. Winter (in Mustari, 2015) with indicators of inter-organizational relationship behavior, behavior of implementors (apparatus/bureaucrats) at the lower level, and behavior of target groups. The results of the study show that based on the three indicators in the implementation of village development based on the Village SDGs in increasing the HDI in 2022, especially in Margosari and Margototo Villages, it has been implemented, where both Margototo Village and Margosari Village have successes and weaknesses in the implementation of village development based on the Village SDGs in increasing the HDI in 2022
