*This research aims to analyze the influence of Good Corporate Governance (GCG) on financial distress in State-Owned Enterprises (SOEs) listed on the Indonesia Stock Exchange during the COVID-19 pandemic. Good Corporate Governance (GCG) is measured through the variables of Independent Commissioners, Board of Directors, and Audit Committee. The data is analyzed using descriptive statistical methods and the Wilcoxon Signed Rank Test. The results of the research indicate that Independent Commissioners, Board of Directors, and Audit Committee have a significant effect on financial distress in SOEs during the research period. This suggests that the implementation of good Good Corporate Governance (GCG) principles can help reduce the risk of financial distress in SOEs in Indonesia.* or formula.
