

ABSTRAK

PENGARUH METODE EKSPERIMEN BERBANTUAN MEDIA REALIA TERHADAP HASIL BELAJAR IPAS DI SEKOLAH DASAR

Oleh :

BARATA JAGUARDO SITANGGANG

Masalah dalam penelitian adalah rendahnya hasil belajar IPAS peserta didik kelas V SD Negeri 11 Metro Pusat. Tujuan penelitian untuk mengetahui adanya pengaruh metode eksperimen berbantuan media realia terhadap hasil belajar IPAS peserta didik. Jenis penelitian kuantitatif dengan pendekatan eksperimen. Metode penelitian yaitu eksperimen semu dengan desain penelitian yang digunakan yaitu *non equivalent control group design*. Populasi dalam penelitian ini berjumlah 60 orang peserta didik. Teknik pengambilan sampel penelitian menggunakan *sampling* jenuh. Teknik pengumpulan data dilakukan dengan teknis tes berupa soal pilihan jamak. Teknik analisis data menggunakan uji regresi sederhana. Hasil uji regresi sederhana diketahui bahwa $F_{hitung} > F_{tabel}$, yang menunjukkan bahwa terdapat pengaruh metode eksperimen berbantuan media realia terhadap hasil belajar IPAS peserta didik kelas V Sekolah Dasar Negeri 11 Metro Pusat.

Kata kunci: hasil belajar IPAS, media realia, metode eksperimen.

ABSTRACT

THE INFLUENCE OF EXPERIMENTAL METHOD ASSISTED BY REALIA MEDIA TOWARDS SCIENCE LEARNING OUTCOMES IN PRIMARY SCHOOL

By

BARATA JAGUARDO SITANGGANG

The problem in the research was the low science learning outcomes of fifth-grade students at SD Negeri 11 Metro Pusat. The aim of the research was to determine the influence of experimental methods assisted by realia media on students' science learning outcomes. It was a type of quantitative research with an experimental approach. The research method is quasi-experimental with the research design used was non-equivalent control group design. The population in this study was 60 students. The research sampling technique used saturated sampling. The data collection technique was carried out using a technical test in the form of multiple choice. The data analysis technique used a simple regression test. The results of the simple regression test showed that $F_{count} > F_{table}$. The conclusion of this research was that there was an influence of the experimental method assisted by realia media on the science learning outcomes of fifth-grade students at SD Negeri 11 Metro Pusat.

Keywords: experimental method, realia media, science learning outcomes.
