Penelitian ini bertujuan untuk menguji bagaimana pengaruh dari akuntabilitas ,transparansi serta *abnormal accrual* terhadap potensi kerugian negara di kabupaten/kota di Indonesia selama periode 2020-2022. Sampel pada penelitian ini dipilih menggunakan teknik purposive sampling pada seluruh pemerintah daerah kabupaten/kota di Indonesia. Penelitian ini menggunakan analisis regresi linear berganda dengan menggunakan uji statistik deskriptif, uji normalitas, uji multikolinearitas, uji heterokedastisitas, uji autokorelasi, uji T pengaruh parsial dan hipotesis, uji F pengaruh simultan, dan uji koefisien determinasi. Hasil penelitian ini menunjukkan bahwa variabel akuntabilitas berpengaruh negatif, variabel transparansi tidak berpengaruh, dan variabel *abnormal accrual* berpengaruh positif terhadap potensi kerugian negara.

This research aims to examine the influence of accountability, transparency, and abnormal accrual on the potential state losses in regencies/cities across Indonesia during the 2020-2022 period. The sample in this study was selected using purposive sampling technique on all local government regencies/cities in Indonesia. This study employs multiple linear regression analysis using descriptive statistical tests, normality test, multicollinearity test, heteroscedasticity test, autocorrelation test, partial T-test and hypothesis, simultaneous F-test, and coefficient of determination test. The results of this study indicate that the accountability variable has a negative effect, the transparency variable has no effect, and the abnormal accrual variable has a positive effect on the potential state losses.
