**MUHAMMAD. IYUL MUTAQIN**

immigration is one of the most important parts thing for a country, given the duties and responsibilities which owned immigration was very determine “in and out” indonesian people or foreign people. Everytime, indonesian people and foreign people able to “in and out” from indonesia territory must be dealing with the immigration first to get pasport, stay and visited licence, visa, deadline stay licence, department stay licence, diplomatic licence, and stay licence. Immigration law is the part of law system which valid in indonesia, eventhough it is subsystem from administration country law. As a subsystem law. It’s important as immigration aspect in regulation life political will get to look at “in and out” setting “from and to” in indonesia’s territory generally and in particular at south lampung regency.

This scription research used juridical normative approach which it do with examine carefully method in secondary list like material law primary and secondary. Analysis the list and information, it was do by way of qualitative juridical.

Based on result of research and discussion, in law towards stay and visited licence abuse able to do with some method like criminalitation, eviction, prevention, and preventive.

Kind of factors the cause of unauthorized happen immigration licence are the own law factor, lawyer factor, factor means and facilities to support law enforcement, community and cultural factors.

In this thing, judge which seldom to valid is deportasion or eviction, because politician and economi told way that made immigration consider more practice and efficiently. Except the problem of abuse licence about the spread of drug, terrorism, and trafickking, therefore by way of general court that should run, so that arouses scared to foreign people which doing the criminal action in immigration.

Keywords : Immigration, abuse clearance.
