

## ABSTRAK

### PERAN BAWASLU KOTA BANDAR LAMPUNG DALAM MENCEGAH DAN MENINDAKLANJUTI PELANGGARAN NETRALITAS ASN DI MASA KAMPANYE PADA PILKADA 2024

Oleh

MULLY DWINATASYA

Netralitas Aparatur Sipil Negara (ASN) merupakan prinsip fundamental dalam menjaga profesionalitas birokrasi dan kualitas demokrasi, khususnya pada pelaksanaan Pemilihan Kepala Daerah (Pilkada). Penelitian ini bertujuan untuk memaparkan peran Bawaslu Kota Bandar Lampung dalam mencegah dan menindaklanjuti pelanggaran netralitas ASN pada masa kampanye Pilkada 2024 menggunakan teori pengawasan James H. Donnelly yang meliputi pengawasan pendahuluan (*preliminary control*), pengawasan saat tahapan berlangsung (*concurrent control*), dan pengawasan umpan balik (*feedback control*). Metode penelitian yang digunakan adalah kualitatif deskriptif dengan teknik pengumpulan data melalui wawancara dan studi kepustakaan. Hasil penelitian ini menunjukkan bahwa Bawaslu Kota Bandar Lampung telah melakukan pengawasan secara terstruktur melalui berbagai upaya pencegahan yaitu sosialisasi, surat imbauan, pemetaan kerawanan, dan patroli pengawasan, serta penindakan melalui klarifikasi, kajian, dan pemberian rekomendasi kepada instansi berwenang. Namun, efektivitas pengawasan belum optimal sepenuhnya karena masih dihadapkan pada keterbatasan sumber daya manusia, jangkauan sosialisasi yang belum merata, rendahnya partisipasi masyarakat, serta keterbatasan kewenangan Bawaslu dalam penjatuhan sanksi. Kesimpulan penelitian menegaskan bahwa pengawasan netralitas ASN pada Pilkada 2024 telah berjalan cukup baik, tetapi masih memerlukan penguatan kapasitas kelembagaan, strategi komunikasi publik, serta koordinasi lintas instansi agar pengawasan dapat berlangsung lebih efektif dan berkelanjutan.

## **ABSTRACT**

### ***THE ROLE OF THE ELECTION SUPERVISORY AGENCY (BAWASLU) OF BANDAR LAMPUNG CITY IN PREVENTING AND FOLLOWING UP ON NEUTRALITY VIOLATIONS OF THE STATE CIVIL APPARATUS (ASN) DURING THE 2024 REGIONAL ELECTION CAMPAIGN PERIOD***

*Neutrality of the State Civil Apparatus (ASN) is a fundamental principle in maintaining bureaucratic professionalism and the quality of democracy, particularly during Regional Head Elections (Pilkada). This study aims to describe the role of the Bandar Lampung City Election Supervisory Agency (Bawaslu) in preventing and following up on violations of ASN neutrality during the 2024 Pilkada campaign period by applying James H. Donnelly's supervision theory, which includes preliminary control, concurrent control, and feedback control. This research employs a descriptive qualitative method, with data collected through interviews and literature review. The findings indicate that Bawaslu of Bandar Lampung City has implemented structured supervision through various preventive measures, including socialization activities, issuance of appeal letters, vulnerability mapping, and supervisory patrols, as well as enforcement measures through clarification, assessment, and the provision of recommendations to the competent authorities. However, the effectiveness of supervision has not been fully optimal due to limitations in human resources, uneven outreach of socialization activities, low public participation, and the limited authority of Bawaslu in imposing sanctions. The study concludes that supervision of ASN neutrality during the 2024 Pilkada has been implemented fairly well, but further strengthening of institutional capacity, public communication strategies, and inter-agency coordination is required to ensure more effective and sustainable supervision.*
