The objective of this thesis is to analyze the position of president and council in the board of the authority in the treaties making under the prevision article 11 of the 1945 constitution. The research design of this research is normatical analitic, than the analysis was held in inductive qualitative. The research result show us that the international agreements is the authority of the president but the legalization is the council with the agreements. That position because of the constitution 1945 adopt system of state power division which chack and balance is the priority in the management of the state. Based on that priority the decision of international agreements making one of the state authority that have to be controled with an agreement of the council. Position of the council in the international agreements is restricted to the legalization only and the criteria that are set in the law no 24 of year 2000 about international agreements.
